

The Somers Faculty Association Trust Fund began in 1979 as a result of collective bargaining between the Somers Faculty Association and the Board of Education. Starting out modestly, the Trust Fund began by offering life insurance coverage and dental coverage to all part time (.5 and higher) and full-time teachers who work in the district.

The Trust Fund is managed on your behalf by trustees who are teachers representing all four school in the district. The information in this booklet explains the benefits currently provided by the Trust Fund.

Currently, the Trust Fund provides Dental Benefits, Vision Benefits, a Secondary Vision and Dental Benefit, Life Insurance, Legal Service Plan and Financial Planning Benefit. These benefits are a part of the negotiated contract between the SFA and SCSD and are at **no additional cost to eligible employees.**

These benefits are separate from the medical benefits provided by the district. Any questions about medical benefits should be directed to the Somers Central School District's business or personnel office. The Trust Fund does not provide any medical benefits.

The Trustees welcome you as a colleague and will answer any questions you may have about the benefits provided by the Trust Fund.

SFA Trust Fund Committee
